### Printing Comic Booklet

Go to: File → Print Booklet

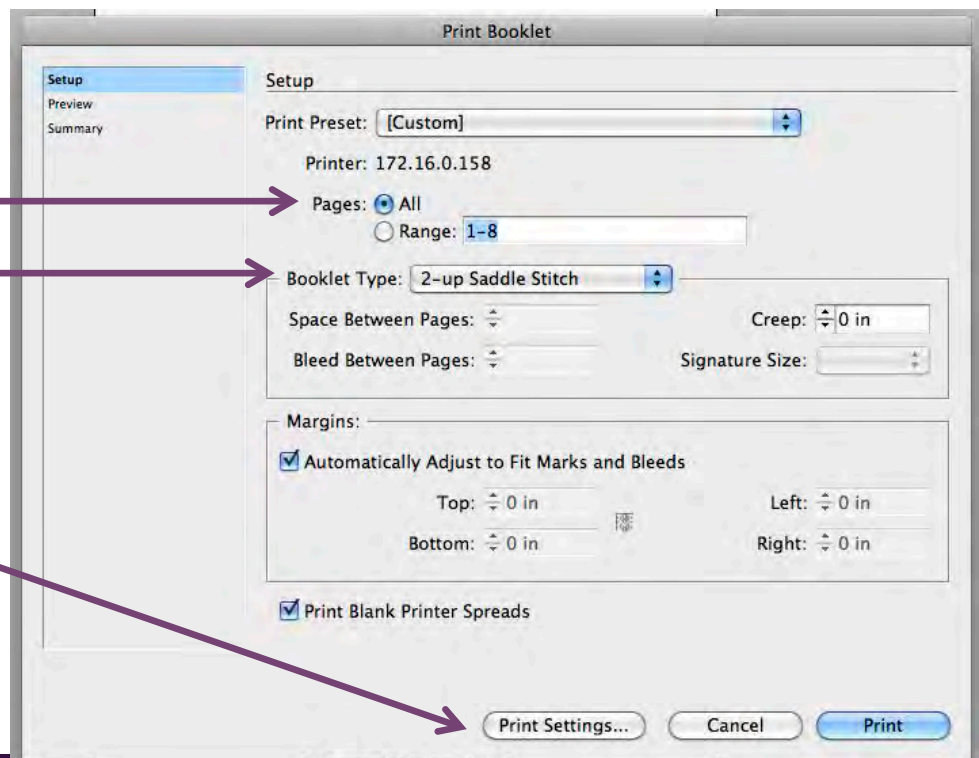

This will open a dialogue box.

You want to make sure the following settings are as follows:

Pages: All

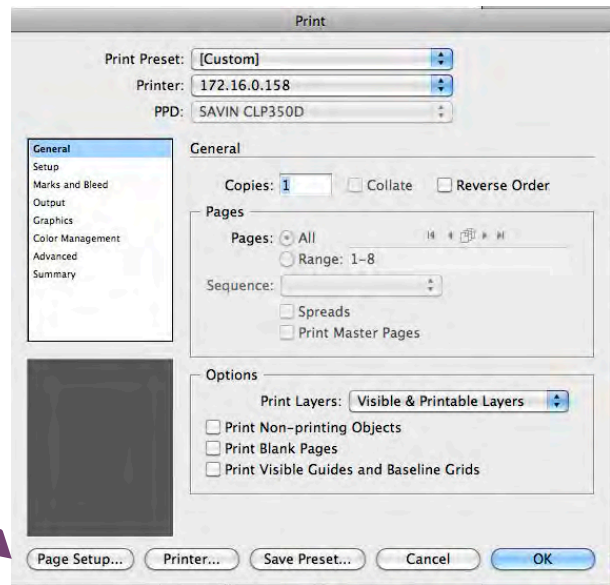

Booklet type: 2-up Saddle Stitch

Then choose: Print Settings...

A new dialogue box will open up.

Choose: Page Setup  
(located on bottom left)

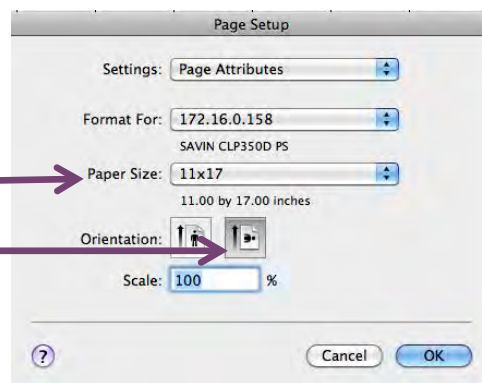

Change the following.

Paper Size: 11x17

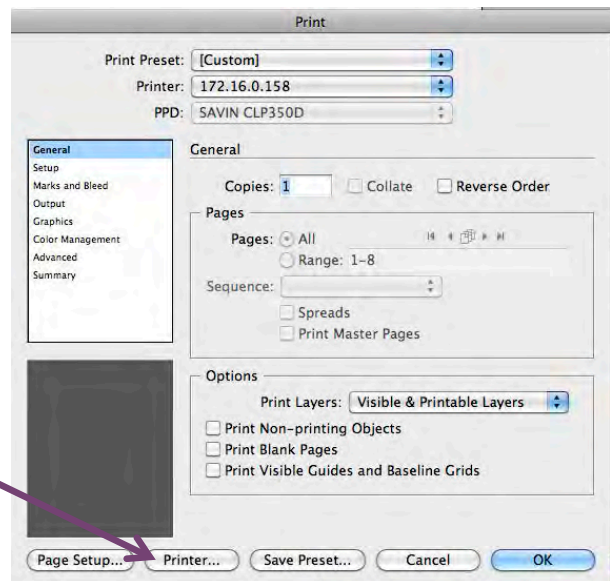

Orientation: Landscape (the one on the right)

Choose: OK

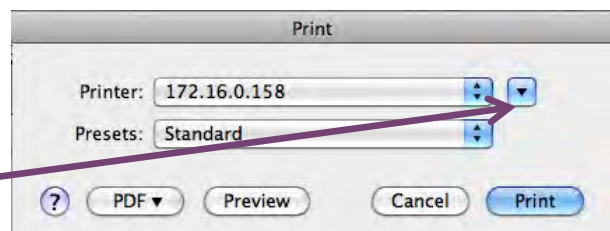

This box will close and you will be brought back to your print settings box.

Choose: Printer

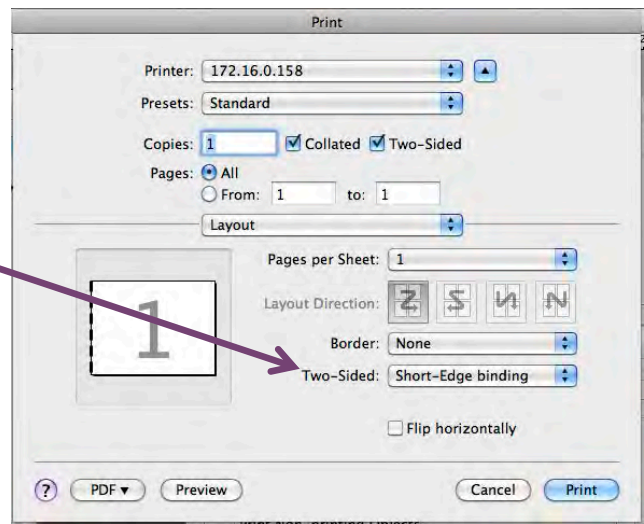

This will open a small box that you will need to expand.

Choose the button that looks like a triangle pointing downward.

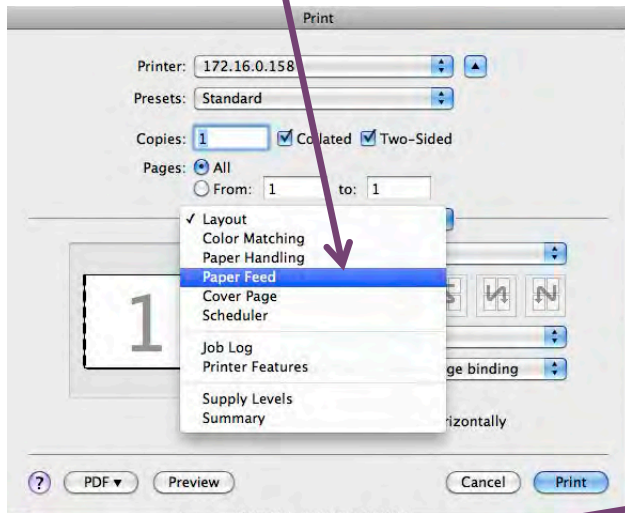

The expanded window will give you more options.

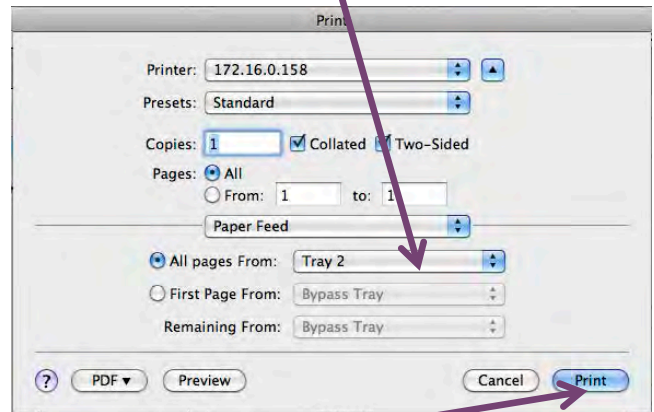

Change the following  
Two-Sided: Short-Edge Binding

Layout: Paper Feed

All pages From: Tray 2

Choose: Print - this will close this box. Choose: OK - this will close your print settings box.

Click: Preview

Scroll through the window to make sure the pages are there. They **will not** be in chronological order, this is so they print properly in book format.
